LIST OF TRAININGS/WORKSHOPS

Business Communication Presentations are a top requirement in some professions, drawing visibility and recognition and inducing personal confidence. Learn the art of public speaking without jitters, adapt non-verbal communication to convey meaning, project your voice with impact and manage audience interaction with ease. We apply a combination of media presentations and team exercises customized to the level and interests of participants.

Benefits

Those wishing to advocate an idea, product or course of action; to learn facilitating skills, impromptu speaking, handle discussions, implement humour and to overcome the fear factor. It favours those for whom business presentations are a frequent career requirement and for running meetings and addressing groups. Training strengthens business relationships, increases productivity and team collaboration.

LIST OF TRAININGS/WORKSHOPS

Relocation Training/Consulting is highly beneficial for HR employees communicating with incoming and outgoing expatriates. It covers both the practical aspects of moving to a new destination as well as the psychological upheaval of those going through the experience. Our cost-cutting Desktop Services offer assignees self-help towards establishing a new lifestyle during their settling-in process.

Desk Top Services

Our cost-cutting and interpersonal alternative matches the times. Assignees are offered self-help guidance towards establishing a new lifestyle before and during their settling-in process. Workshops are specifically designed for individuals, small groups and HR personnel communicating with incoming and outgoing expatriates and coordinating assignment.

Benefits

Our corporate consultancy will eliminate the legwork prior to an international assignment or on arrival at the new destination. If you are being transferred to other destinations and don't know where to start, contact us and our international partners will attend to all your needs.

Ways to reduce Relocation Stress
Towards a New Culture

LIST OF TRAININGS/WORKSHOPS

Accent Modification Training (For non-native professionals with medium-advanced English level)

Cross border interaction increasingly uses English as the lingua franca though the way a non-native English speaker sounds often leads to misunderstandings and a harsh reality. We train individuals to mitigate their accent, acquire the correct speech rhythm and intonation patterns and enhance their comprehension of native speakers' diction. Our systematic approach focuses on bringing non-native pronunciation to resemble that of native speakers, eliminating self-consciousness and enhancing clarity of speech.

Benefits

Anyone communicating directly with the public in English, whether neutralizing accents or adapting them to exact professional needs of people in business whether selling or negotiating, engaged in public speaking, in the theatre, in teaching, politics, law, air traffic, international media or broadcasting and those learning social language skills. Ideal for those who are obtaining or retaining a job, advancing in their position or preparing for an interview.

Introduction to Accent Modification

Articulation & Pronunciation Rules
Appropriate Speech Rhythm
Vital Patterns of Sound and Speech
English conversation, Spontaneous speech, Everyday interaction
Social Language Practice
Business Vocabulary & Language Practice

Accentuate to Communicate

Develop and polish your writing skills
Acquire assistance with document preparation
Improve and understand English jargon, idioms, abbreviations, etc.
Strengthening your presentations
Receive general cultural knowledge (for business and social settings)
